

# GENEXUS CONSULTING

## WE TURN TECHNOLOGY INTO RESULTS

We are a **consulting** firm with over twenty years of experience in the IT business. Based on business knowledge, we generate **GeneXus** technology solutions for corporations all over the world.

With state-of-the-art technology, we develop **mission critical systems** with results that guarantee successful projects.

### LINE OF SERVICES

#### CONSULTANCY

**We provide support to organizations to achieve the best business results.**  
By combining business knowledge, best method practices and cutting-edge applications, we are capable of providing customized solutions for attaining your business targets.

#### SOFTWARE FACTORY

**On time, on budget and according to specifications.**  
The Software Factory is a flexible service that provides solutions to companies who need to reach the market fast by delivering development within the deadlines, according to specifications, and within the budget. We operate through a combination of development services performed at our headquarters or directly from our customer's facilities. As a result we guarantee the quality of deliverables and an adequate cost-benefit ratio.

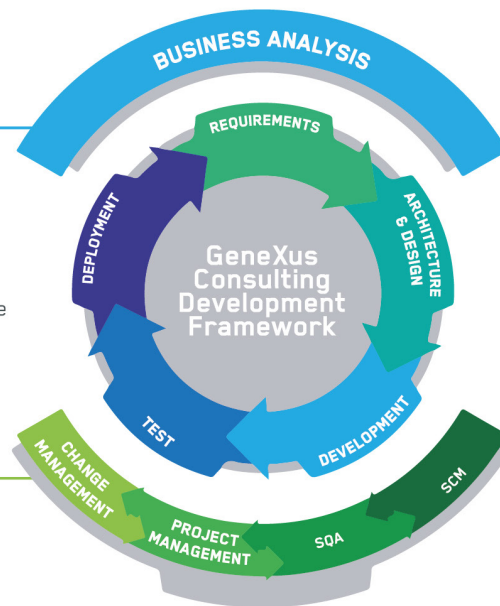

#### GENEXUS ASSISTANCE

**We support organizations in making the most of the potential available with GeneXus technology.**  
By applying GeneXus technology to their business, we help organizations attain their business goals.  
Our consulting of GeneXus technology is based on our vast experience with methods and practices within GeneXus. We add value to your organization by enhancing and strengthening the capabilities of your organization's development team.  
If your company seeks to implement a project with GeneXus, we can provide support in different ways that include the formulation of a master plan, project management, architecture definition and implementation, working methodology, training, and support for the technology applied among other options.
